Why Shred Personal Documents?

Rifling through trash cans for personal information is a common tactic of identity thieves. Shred sensitive materials to minimize your risk. Before discarding them, cut up expired credit and identification cards,bank and credit card statements you no longer need, charge receipts with your account information, insurance forms, physician bills and the like!

What Materials Should I Bring for Shredding?

Bring all sensitive paperwork that includes account numbers, birth dates, passwords, PINs, signatures and Social Security and/or drivers license numbers. To protect your privacy, consider other items that include names, addresses, phone numbers and email addresses. And when in doubt, shred your documents!
