

It's time to clean out the clutter! Get ready for the annual Panorama Lions Club annual Garage Sale on **April 12 from 7 am to 4 pm**. It is never too early to clean out the garage, closets and storage areas of stuff you don't need and want any more. Contact Judy Trosvig (936-444-3401) for more information on what can be donated.

Thank you for supporting Panorama Lions Club

**Important
Information**

Sewer Blockage

There have been several incidents of sewer blockages caused by improper materials being flushed down toilets. (rags, towels, diapers, etc.) Respectfully request that residents refrain from flushing any product or object not normally used for the commode. Foreign objects have caused serious blockages, and the possibility exists for a sewer back up into homes. Resident cooperation is greatly appreciated.

RECREATIONAL VEHICLES, BOATS & TRAILERS

A reminder that City Ordinance 2003-280 provides specific guidance that prohibits parking recreational vehicles at your residence. The City recently completed a City wide audit to identify those not in compliance. The City will notify residents not in compliance, via mail and request you take the necessary action to correct the situation. Please note a grandfather clause was approved years ago when this ordinance was first into effect. The number covered under this waiver is reducing do to normal attrition. Respectfully request resident cooperation to come into compliance with the City ordinance.

Waste Management

The recent cold snap with ice caused a snafu in our Waste Management pick up schedule. The City received mixed messages from Waste Management, and did not expect service in Panorama Village on Tuesday the 28th of January. However, waste trucks showed up, but did not pick up the entire City. We have contacted the Waste Management supervisors to discuss this foul up. The company will work to insure the right information is forwarded to the City in a timely manner. They City will attempt to keep the residents informed via the City of Panorama Village website.

Over all we receive excellent service from Waste Management. The adverse weather did cause some of this hiccup - but the company is working to manage their schedule in adverse weather.
